How to Reserve and lock a new HOME+PLUS transaction

While training is not a "mandatory" requirement for a lending professional (originator, processor, underwriter, post-closer, etc.), it is strongly recommended.

 The HOME+PLUS reservation system (HTS/Emphasys-Lender Online) is a "lender-only" system in which system credentials are required. Users do NOT need to take mandatory training to receive credentials, your internal management team simply assigns them.

- There are a series of 9 on-demand training sessions, each focusing on a specific element of the program, product, and, or process.
- If you do not know who within your organization has master credentials to the Lender-Online reservation system, please contact Dirk Swift.
- Please know for security purposes, if a user does not access the Lender-Online system within a 30-day period, their user credentials become inactive. In addition, if you change employers, your HOME+PLUS system credentials cannot be transferred to another lender.

#### The **HOME+PLUS**

Lender – Online reservation system has program parameters embedded in the system.

As such, a user will be notified via *error message* if a program parameter has been crossed.

Our reservation system is not a full underwriting engine and as such users cannot rely solely on the system to ensure program compliance. • Once the reservation is accepted, the transaction is reserved, and the interest rate is locked.

• The lender now has 60-days to close, fund, ship, clear compliance and have the master servicer purchase the mortgage.
