(1) Varies by County.

(a) Minimum Credit Score: If your credit score falls below the minimum program requirements, you are not currently eligible for the HOME PLUS program. However, many of our pre-purchase homebuyer counseling agencies and mortgage lenders provide credit repair services. You may want to reach out to them if you cannot currently qualify for the new underlying first mortgage.

(b) Maximum Borrower's Income: The HOME PLUS income limit is based on the borrower's pre-tax gross income calculated by lenders and used for the approval of the new underlying first mortgage. If your income is close to the program limit OR you want to determine your qualifying income for the mortgage, you will need to meet with an approved, participating lender to determine what your final income figures will be.

(c) Maximum Debt-to-Income Ratio: the standard definition is: Your debt-to-income ratio is all your monthly debt payments divided by your gross monthly income. This number is one-way lenders measure your ability to manage the payments you make every month to repay the money you have borrowed. There are variables to this, and we suggest you speak with your lender to determine your actual DTI ratio. **For DTI's between 45.01% and 50.0% the minimum credit score is 680.**

(d) Maximum Loan-to-Value: The difference between the purchase price of your new home and the loan-to-value, is the required down payment. This figure does not include closing costs. Your Realtor or mortgage lender can provide great detail based on your specific situation.
